Notification

Re: to examine and certify Measurement Gauge to examine outside B.E.2545

The applicant may request the Competent Official to examine outside the Central Bureau or Branch Bureau, Measurement Gauge must be of the type and number specified below.

Weighing machine

1. Automatic weighing machine Semi-automatic, Except for springs weighing machine.

(1) displaying weight not more than 100 kilogrammes not less than 50 machines

(2) displaying weight more than 100 kilogrammes

but not more than 2,000 kilogrammes not less than 10 machines

(3) displaying weight more than 2,00 kilogrammes not less than 5 machines

2. Springs weighing machine.

(1) displaying weight not more than 20 kilogrammes not less than 300 machines

(2) displaying weight more than 20 kilogrammes not less than 200 machines

3. Non-automatic weighing machine except weighing machine

Measuring the percentage of starch in the head

(1) displaying weight not more than 100 kilogrammes not less than 100 machines

(2) displaying weight more than 100 kilogrammes

but not more than 2,000 kilogrammes not less than 10 machines

(3) displaying weight more than 2,00 kilogrammes not less than 5 machines

4. Weighing machine measures the percentage of starch in the tubers not less than 20 machines

5. Pendulum

(1) displaying weight not more than 10 kilogrammes not less than 50 pendulum

(2) displaying weight more than 10 kilogrammes not less than 20 pendulum

Volume Measuring Tool

1. Liquid measuring machine Non-classified type		
(1) displaying volume not more than 1 litres	not less than	100 machines
(2) displaying volume more than 1 litres	not less than	50 machines
2. Measure the fuel and engine oil	not less than	200 machines
3. Measure of the fuel pump	not less than	100 machines

Measurer

1. Length measurer type metal belt roll back type automatic fiberglass And foldable Display not more than 5 meters	not less than	300 machines
2. Volume meter of lubricant	not less than	100 machines
3. Volume measurer		
(1) displaying Diameter not more than 25 millimeter	not less than	300 machines
(2) displaying Diameter more than 25 millimeter but not more than 80 millimeter	not less than	50 machines
(3) displaying Diameter more than 80 millimeter	not less than	10 machines
